- Precise old oil out weighing with automatic new oil in.
- Guided temperature linked pre/post service pressure check.
- Simple and intuitive touch 7" colour touch display.
- Guided temperature linked pre/post service pressure check.
- Hybrid Pro kit option and hybrid specific UV dye.

Onboard information database.
[Agriculture & construction database optional]

Automatic recovering, recycling
and recharging R134A refrigerant.
(R1234yf / R513a ready)

Remote control & service.
[iOS | Android | Windows]

Automatic oil separation
measuring and injection.

Automated updates
software/database.

Automatic UV leak-test
dye injection.

FUTURE-PROOF
With a simple kit Brainbee 9350 can be updated to R1234yf / R513a.

BRAINBEE CLIMA 9350 | CONNECTED

BrainBee Clima 9350 is equipped with WIFI, keeps you connected wirelessly and effortlessly.

- Automatic updates (software & database)
- Remote service (from AECS)
- Remote control from AECS Technical Support
- Print reports to networked or WIFI printer
- ASA Network interface
- Integrated Brainbee apps (iOS/Android)

BRAINBEE CLIMA 9350 | SMART

Stowing away the 4.5m hoses is easy with a deep pocket on the rear. The couplers connect to the back of the Brainbee to keep them clear of debris when not in use. These are also used for changing between oils.

Changing between PAG and POE oils is easy with Brainbee's integrated lossless change-over system. (i.e. PAG to POE or POE to PAG).

BRAINBEE CLIMA 9350 | ACCESSORIES AND PERIPHERALS

STOP LEAK DETECT KIT

The Stop Leak Detection kit is made up of high quality automotive vehicle couplers, a refrigerant flow meter, flexi pipe, syringe and the all-important reuseable stop leak detecting cartridges. (Testing takes less than 5mins).

TECHNICAL SUPPORT

AECS technical support is a part of your team. We specialise in technical support so that you can receive the best aftercare with your workshop tools/equipment and assist you and your workshop with problematic vehicles. Contact with our support team can be either through, phone, email or our technical support forums.

POWER OF COMMUNITY

Receive repair advice and next step guidance to solutions from our team of engineers and the best from NZ's & AU's trained diagnosticians.

LIMITLESS FORUMS

Upload Scan Tool, Jaltest, ATS Scope, and Launch HD3 recordings and our technical team will assist.

AECS EQUIPMENT

AECS Equipment offers full workshop solutions. Our equipment empowers workshops throughout Australasia, we believe that every workshop should have the best equipment. This is backed by our full-service team.

100% PRODUCTIVITY

Down time is costly, AECS provides intensive aftercare and technical support.

SOLID ROI

AECS equipment has been tried and tested maximising time & revenue.

AECS TRAINING

More than 700+ technicians per year from around New Zealand and Australia train with AECS face 2 face training. We aim to provide technicians with exceptional learning experiences that combine the best of theory and practical hands-on training. Including comprehensive resources and training technologies with the best teaching methodologies.

ONLINE TRAINING

We've taken our face to face training to the digital space with our Online Academy. See more at online.aecs.net

DEDICATED LEARNING PLATFORM

AECS has invested in a dedicated area for automotive training. It can be accessed through a web browser or app.

CONVERSATION KEEN

Our team are always keen to assist and provide information on any of our equipment, training and technical support, with no strings attached. We're ready when you are.
